

Linguist's Software SITE LICENSING POLICY

Ph: (425) 775-1130 • Fax: (425) 771-5911 • fonts@linguistsoftware.com • www.linguistsoftware.com

4d0

Applicable to: Any person or entity purchasing Linguist's Software products directly from Linguist's for use on more than 1 computer. Dealer purchases of Site Licenses must be for resale.

Ownership: The software belongs solely to the purchaser.

This license authorizes a specific number of computers to use the software:

The licensee pays a set fee (chart below) based on the number of CPUs (Macintosh/IBM) on which it will be authorized to use the software. Use of the software is restricted to the authorized computers. The License covers all users on each licensed computer. It may not legally be used on any other computers. Copying for use on other computers is prohibited.

Benefits: The License authorizes you to install the software on each licensed computer. Installation of the software into peer-to-peer networks or network servers is permitted if all computers with access to the data are licensed.

Flexibility for expansion: At any time the purchasing end user (institution or individual) can expand its license to other computers or users by sending Linguist's Software the appropriate additional fee (see chart below, e.g. \$40.00 for a fourth LaserGreek, list \$99.95).

Obtaining Site Licenses for already purchased software: Linguist's Software will apply money it has received from a prior purchase of a given number of units of a product toward a Site License for the same number of units of that software. Include a copy of the original invoice, or list the product(s) with the date and place of purchase.

Cost: Depends on the number of licensed computers. The cost bottoms out at \$20 for \$49.95 items, \$40 for \$99.95- items, \$60 for \$149.95 items, \$80 for \$199.95 items, etc.

First authorized computer: the list price of the software

Second authorized computer: 75% of the list price of the software

Third authorized computer: 50% of the list price of the software

Fourth and each additional computer: approximately 40% of the list price of the software

Upgrades: Twice the single unit upgrade cost. For example, a major upgrade to a \$99.95 product usually costs \$40. Thus, the Site License upgrade cost would be \$80 plus shipping. The upgrade entitles the institution to copy the upgrade onto all licensed computers.
